

NOTES:
 Excepting the piles that are under walls, the elevation of the top of each pile is shown. Piles that are under walls have the top three (3) feet of the pile embedded in the concrete of the wall.
 The 2 ft. concrete pipe called for shall be equal to the 24 inch I.D. reinforced concrete pipe manufactured by the Hawaii-Hume Concrete Pipe Co. Ltd. The pipe shall be complete with collars, steel bargills, concrete, both ends, and concrete ends for cast iron cover, all as shown on section.
